## ENGL 112

### Final Paper Presentations

Each presentation will last FOUR minutes. Since the schedule is so tight, you must honor this time limit so every student gets to present his/her information.

Here are the grading criteria for your four-minute presentations. Your presentation is worth TWENTY POINTS. Here is what you are required to do:

- Briefly summarize the general issue; culminate in an articulation of your specific focus.
- Forecast the proposal you will make, with an explicit statement of thesis.
- Indicate the specific community you will discuss. Is this a regional, local, national, racial, or economic community?
- Indicate who would be in favor of your proposal and who would not be.
- Mention your two textbook sources and your four secondary sources (with journal names)
- *If you have memorized your speech and have clearly prepared for your four-minute opportunity, I will award you one extra point!*
