

## Instructions Assignment Peer Review

Group members' names (those *doing* this review): \_\_\_\_\_

Name of group members whose projects are *being* reviewed: \_\_\_\_\_

You and your group-mate are going to write a paragraph of comments/suggestions for each student whose project you reviewed. In your paragraph, please address the following items:

- a) What do you like most about your peer's instructions?
- b) What is the biggest item your peer needs to address during revision?
- c) Please comment on your peer's title, "why" statement, use of white space, item numbering, and general quality of graphics. Provide suggestions for improvement of these features.
- d) Do you have any comments on the numbering of or in-text references to the graphics (the labeling of the graphics)?
- e) Does your peer have introductory information, warnings, or follow-up advice? How could this aspect be improved?
- f) Were you able to perform the task for which the instruction were written easily? Not-so-easily? Not at all? What are your suggestions?
- g) Finally, give your peer comments on grammar and over-all clarity of sentences. Also make general comments on design.
